Largely increased earnings through grain movement are counted on as a reason for the expected restoration of the dividend. No one expected that it would be cut on the last declaration, and there was much surprise when it was cut because of the large surplus of the company.

COTTON MARKETS.

NEW YORK.

NEW YORK, January 27.-The cot NEW YORK, January 27.—The cotton market was nervous and unsettled early today, and, after opening at a decline of 4 to 6 points, sold about 6 to 9 points under last night's closing figures, with May easing off to 12.26, July to 12.37 and October to 12.39. Liverpool just about met yesterday's local decline and was a moderate seller here early, while there seemed to be some selling for continental account. Houses with southern connections were also sellers, and covering by Wall street shorts seemed to be the chief source of support during the early trading.

Futures opened steady: March, 12.03; May, 12.30; July, 12.42; October, 12.40; December, 12.54.

Offerings increased later in the morn-
